Ms. Alice Forrester, Executive Director  
Clifford Beers Clinic  
93 Edwards Street  
New Haven, CT 06511

Dear Ms. Forrester:

I am very pleased to offer my support for Clifford Beers Clinic's application for a Health Care Innovation Award to the Center for Medicare and Medicaid Innovation (CMMI).

Clifford Beers is proposing a new initiative—"WrapAround New Haven"—that will provide a multi-disciplinary Family Team Model of integrated care for a target population of high-needs, high-cost Medicaid recipients in New Haven. A team of community-based care coordinators will recruit children and their families from the target population, create a care plan for each family that draws upon appropriate medical and behavioral health services, and manage the transitions between providers so that patients do not fall between the gaps. It also proposes design of a Medicaid payment reform plan that supports this model of care. The project will track outcomes in terms of health care delivery, patient health outcomes, and Medicaid costs.

Clifford Beers Clinic has an impressive 100-year history of service to the children of New Haven who suffer grievously from the burdens of poverty, mental illness, and inter-generational trauma. The Clinic has collaborated with my office in planning for comprehensive approaches to meeting the behavioral health needs of New Haven children and their families. Their talented staff has taught us to think broadly about the significance of Adverse Childhood Events as predictors of both medical and psychiatric illness, and the importance of integrating primary care with behavioral health services and physical wellness.

I believe that the model of care Clifford Beers is proposing will greatly enhance the City's capacity to meet our goals for a healthy population. I offer my enthusiastic support for the innovative model you have designed, and my commitment to its implementation success. The children and families we serve will greatly benefit from this effort.

## Repairs to the George Street Bridge over the Church Street Tunnel

The George Street Bridge, State Bridge 06534, carries street level traffic over and forms the roof of a segment of the Church Street Tunnel, which provides service and loading dock access for the Gateway Community College Parking Garage and the hotel and buildings of the Chapel Square block.

The bridge is a reinforced concrete structure constructed in 1963. The bridge has two parts, the east section which is repaired in this project, and the west section which is an integral part of the Temple Street Garage. The bridge was last inspected in July 2011 and areas needing repair were identified. Repairs to the portion of the bridge below the garage identified in the inspection have been completed by the New Haven Parking Authority.

This project includes structural repairs to the underside of the bridge slab, beams and columns. Work on the top of the bridge includes a new expansion joint seal at the expansion joint at the Temple Street Garage, and infill of four grated openings in the roadway ventilating the tunnel below along with deck and beam repairs at these openings. In the tunnel below, the existing bituminous overlay is removed and replaced with a new concrete overlay shaped to improve drainage and direct surface water into new drains. New Columns with footings are installed to support bridge beams and the girder at the expansion joint. Deteriorated segments of vehicle barriers between the traffic lanes are being patched.

A new fan room is being constructed below the George Street Bridge to provide the final component of the new ventilation system for the Church Street tunnel from South Orange Street to Crown Street. The work includes concrete, steel, fencing, and other work to create a mechanical space below the George Street Bridge; and the installation of new exhaust fans and ductwork within this space in the tunnel to tie into existing exhaust ductwork in the Temple Street Garage, installation of new sprinkler piping, and ventilation control systems in the tunnel, to complete the air intake and exhaust systems already constructed in the Temple Street Garage and the Gateway Garage, and other associated or incidental work to complete and functioning ventilation system. Ventilating the moisture in the tunnel below is essential to preserve the integrity of the bridge structure.

Hi Joe,

According to the July 2011 inspections, both Bridge Nos. 06534 and 06535 are eligible for the State Local Bridge Program; they are both in poor condition. They are not eligible for the Federal Local Bridge Program because of functional classification (they're both collectors).

The sufficiency rating for Bridge #06534 is 38.45, the Priority Rating is 37.19  
The sufficiency rating for Bridge #06535 is 59.45, the Priority Rating is 58.49

As a lifelong resident and Mayor of the City of New Haven, I strongly support another five (5) years of CDC funding for the Yale-Griffin Prevention Research Center. I share your desire to improve the health and well-being of our families residing in New Haven.

The Prevention Research Center has been involved with several successful initiatives benefiting residents of New Haven. Your longstanding partnership with Yale University students to offer your Nutrition Detectives Program in the New Haven Public Schools as a community service option for the Yale students, followed by your partnership with the New Haven Public Schools District Wellness Committee and the CARE Initiative to bring Nutrition Detectives and ABC for Fitness to elementary schools, are examples that bring tremendous benefit to our city. We were pleased to assist with the dissemination of the innovation use of photographs and written testimonials to inspire increased community support for diabetes prevention (the PhotoVoice Project) by hosting a kick-off reception and display at City Hall. In addition, you have been involved with other initiatives involving diabetes prevention, such as conducting a voter awareness campaign and training community health advisors to educate residents about diabetes. Finally, your own weekly column in our local newspaper has raised awareness of many other important health issues among members of our community.

I am particularly grateful for the collaboration we have developed with Yale's School of Public Health and CARE and look forward to bring many of the Get Healthy CT! Initiatives to the residents of New Haven.

**Dear Friends:**

**I would like to welcome you to the rolls of New Haven voters.**

**The strength of our City is the dedication and participation of our residents – their commitments to their friends and families, their neighborhood, religious and social organizations, and civic institutions. Registering to vote is a critical part of making New Haven strong.**

**I encourage you to visit [www.cityofnewhaven.com](http://www.cityofnewhaven.com) whether you are new to New Haven or not. You will find out about municipal government, a calendar of activities, and other useful information. And if you are interested in volunteering in city government, look under the "Boards and Commissions" section of the website under "Government", and call Patricia Lawlor in my office at (203) 946-7802.**

**If you have any questions or concerns about New Haven, you can tell me about them personally in my "Mayor's Night Out," when I visit a neighborhood, or "Mayor's Night In," which happen the first Tuesday of every month at 5 p.m. in my office in City Hall. I will sit with you individually and talk about your issue. And you can always email me at [MayorDestefano@newhavenct.net](mailto:MayorDestefano@newhavenct.net).**

**I hope that you will become involved in the life of this City, in whatever way most appeals to you. New Haven is nothing more than what we, as its residents, make it – I thank you for registering to vote here and for being part of this great city.**

Very truly yours,

## Police Code of Ethics

*As a police officer*, my fundamental duty is to serve humanity, to safeguard lives and property, to protect the innocent against deception, the weak against oppression or intimidation, the peaceful against violence or disorder, and to respect the constitutional rights of all to liberty, equality and justice.

*I will* keep my private life unsullied as an example to all, maintain courageous calm in the face of danger, scorn or ridicule, develop self-restraint and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature, or that is confided to me in my official capacity, will be kept ever-secret unless relation is necessary in the performance of my duty.

*I will* never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise to crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill-will, never employing unnecessary force or violence and never accepting gratuities.

*I recognize* the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession...policing.

## Mission Statement

We, the men and women of this New Haven Police Department, believe in shared responsibility with our community to create a safe and inclusive city.

We are dedicated to providing a safe environment by targeting quality of life issues in our neighborhoods, using revitalized **community-based policing strategies**.

We will carry out this mission with professionalism, fairness and absolute integrity.

**RE: New Haven Downtown Crossing**

Dear Mr. Bayer:

ED

Thank you for your letter concerning Downtown Crossing here in New Haven. I am pleased to report that the project is on schedule and within budget. Construction started in February, 2013. The first of the highway segments was closed permanently in May and work started on the new medical / lab office building in June. I have attached some progress photographs to show you how the work is coming along. In addition to the construction activities, we are spending quite a bit of time with commuters on traffic safety and alternate routes to work. Attached is a copy of the hand-out map and bookmark which we give out to people.

As you may have read, the main tenant will be Alexion Pharmaceuticals. The company is moving back to New Haven and expanding its workforce to over 600. In order to better accommodate Alexion, the developer recently announced that the size of the new building will be increased from 425,000 square feet to nearly 500,000 square feet. The road work is scheduled to be completed next summer and the building will open the following summer of 2015. While I will be retiring at the end of the year, I look forward to seeing these projects completed and further work on Downtown Crossing in the coming years.

Thank you again for your interest in this and in other matters here in New Haven. Please stay in touch.

Very truly yours,

John DeStefano, Jr.  
Mayor

**MAYOR:** THANK PRINCIPAL GENERETTE AND ALL THE ATTENDEES. EVERYONE IN THE ROOM WAS INVITED BECAUSE OF THEIR COMMUNITY INVOLVEMENT IN VIOLENCE REDUCTION. INVITEES INCLUDE:

- ALDERMEN
- DELEGATION
- CLERGY (BIG CHURCHES AND NEWHALLVILLE) & CHIEF'S CLERGY GROUP
- YOUTH ORGS (VIOLENCE PREVENTION GRANTEES) & CHIEF'S YOUTH CABINET

- RE-ENTRY ROUND TABLE
- COMMUNITY ACTIVISTS
- NEWHALLVILLE NON-PROFIT PROVIDERS

32-2004  
Youth Services  
Community Action  
Law Enforcement Agency

**MAIN POINTS:**

- WE HAVE MADE SOME PROGRESS, BUT THERE IS STILL SOME WORK TO DO.
- COMMUNITY IS CENTRAL TO ALL THAT WE DO.

- YOU KNOW ABOUT COMMUNITY POLICING. DEAN ESSERMAN HELPED BRING COMMUNITY POLICING BACK, BUT VIOLENCE REDUCTION IS GOING TO BE MORE THAN JUST ENFORCEMENT.
- IN ADDITION TO OUR FOCUSED ENFORCEMENT STRATEGIES, WE MUST WORK ON:
  - **VIOLENCE PREVENTION** – WE NEED TO STOP THE CYCLE OF VIOLENCE. TO DO SO WE NEED TO ENSURE THAT OUR YOUTH HAVE POSITIVE CHOICES.
    - WE DO THIS THROUGH OUR SCHOOLS, WE DO THIS THROUGH OUR YOUTH PROGRAMMING AND CENTRAL TO THIS ARE OUR PARTNERSHIPS. (SHOUT OUTS TO GARTH, BOOST! AND SEVERAL OF THE YOUTH PROVIDERS)
    - THANK THE GOVERNOR & DELEGATION FOR THE YOUTH VIOLENCE PREVENTION DOLLARS – WILL SERVE 660 MORE YOUTH WITH POSITIVE PROGRAMING THIS YEAR
    - KEY TO THIS IS SOCIAL AND BEHAVIORAL HEALTH (SHOUT OUT CLIFFORD BEERS, DIXWELL/NEWHALLVILLE MENTAL HEALTH) – EXPECTATIONS OF BEHAVIOR, DEALING WITH TRAUMA AND STRESS
  - **BREAK THE CYCLE OF RECIDIVISM** – I CAN TELL YOU THAT WITHOUT QUESTION THE MAJORITY OF OUR SHOOTING VICTIMS AND PERPETRATORS HAVE ALREADY HAD EXPOSURE TO THE SYSTEM.
    - THE MOST RECENT STUDY OF RECIDIVISM WITHIN THE D.O.C WAS COMPLETED IN FEBRUARY OF 2012 BY OPM. **THE STUDY FOUND THAT WITHIN FIVE YEARS OF THEIR RELEASE; 79 PERCENT WERE RE-ARRESTED, 69 PERCENT WERE CONVICTED OF A NEW CRIME, AND 50 PERCENT WERE RETURNED TO PRISON WITH A NEW SENTENCE.**
    - RE-ENTRY ROUND TABLE (SHOUT OUTS TO ERIC REY, AND PAM ALLEN, BILL DYSON IF THERE, CHAIRS OF ROUND TABLE). WE ARE TRYING TO CONNECT RE-ENTRANTS WITH THE SERVICES THEY NEED TO SUCCEED AND NOT RE-OFFEND. JOBS, HOUSING, FOOD, MEDICAL ATTENTION (SHOUT OUT DR. EMILY WANG, TRANSITIONS CLINIC)
  - **COMMUNITY CONNECTIONS** – PROJECT LONGEVITY, COMMUNITY POLICING. THEY BOTH NEED COMMUNITY TO WORK. BLOCK WATCHES, MANAMGENT TEAMS, COMMUNITY GARDENS, MENTORSHIPS, CHURCHES – THESE CONNECTIONS HELP CREATE A SENSE OF NEIGHBORHOOD.
    - PEOPLE LOOKING OUT FOR ONE ANOTHER AND A SENSE OF WHAT IS ACCEPTABLE.
    - ICE THE BEEF (DARRELL ALLICK), PROMISE LAND(DONALD MORRIS), STREET OUTREACH WORKERS – LEADERS IN THE COMMUNITY KEEPING AN EYE OUT FOR THOSE WHO MAY NEED AN EXTRA PUSH IN THE RIGHT DIRECTION.

- A SUPPORT NETWORK TO TURN TO IN TIMES OF STRESS AND TIMES OF CRISIS. (SHOUT OUT MOMS PARTNERSHIP)

#### **NEXT SPEAKERS:**

TURN IT BACK TO THE CHIEF – WILL FOCUS ON ENFORCEMENT STRATEGIES.

HE'LL TURN IT OVER TO THE GOVERNOR.

CHIEF WILL THEN MODERATE CONVERSATION

Public service work can be quite demanding and challenging. It also has many rewards, the most significant of which is knowing that your efforts over the years have made a difference and have improved the quality of life of members of the New Haven community.

New Haven thanks you for a job well done! Best wishes for a healthy, happy retirement.

The Honorable Steven C. Bateman and City Council Members  
650 N.E. 22 Terrace  
City of Homestead  
Homestead, Florida 33033

Dear Mayor Bateman and City Council Members:

Rev. C. Alexis Talbott of the First United Methodist Church of Homestead asked me to share with you our knowledge and experience in creating a Municipal ID Card program since New Haven was the first city to implement such a program. I thought it useful to share New Haven's experiences engaging the matter in the absence of a coherent federal immigration policy and how that failure affects work, public safety and American competitiveness.

As you may know, New Haven is a densely developed urban community of some 130,000 people in a land area of some 20 square miles. The City is home to Yale University, a world class research institution; Yale-New Haven Hospital, which is the nation's 4<sup>th</sup> largest hospital by bed count; and a robust sector of knowledge based companies. The City is also home to most of the region's affordable housing and its housing stock is 70% rental.

Due to the abundance of rental and affordable housing and work inside the City, New Haven has always been a home to new and transient populations. Throughout our history the City has also been home to large immigrant populations. In fact, when my grandparents emigrated to America and New Haven, over one-half the City's population were immigrants. The Mayor of the City, just a few years earlier, had himself been an immigrant to America. Our City, like most American cities, has had a rich and beneficial experience with immigrant populations.

phone 203.946.8200 fax 203.946.7683

*\*This creative impression is the work of Jannine Ramirez, a student of Troup School.*

I have been Mayor of New Haven since 1994. Shortly after becoming Mayor meaningful numbers of Mexican, Central American and South American families began settling in the City. Often arriving with visas, substantial numbers of these City residents remained after expiration of their entry documents. Over time these families began having children who were born in the United States, but whose older sibling had entered America at a very young age. Many of these young people often have no memory of their country of birth and have gone through elementary and high school with no national identity other than as Americans. As time went on, these families often and in increasingly large numbers, found employment in service jobs and became integral to the economic well being not only of their families, but to the City as well. I should also note that at the same time, other immigrant populations began to emerge in the City in substantial numbers as faculty, staff and students at Yale University.

By 2005 these immigrant communities had integrated themselves into the social fabric of our City. In addition to businesses, immigrant populations began to fill our churches, public schools, recreation leagues and neighborhoods. Increasingly we found that the undocumented community was disproportionately subjected to victimization by landlords, employers and to street crime. While represented disproportionately as the victims of such abuse, they were disproportionately **NOT** the perpetrators of such crime. Due to experiences in their native country and their immigration status, immigrants were often reluctant to report crimes to which they had been a victim to the police. This was neither good for them or for our City. New Haven has always practiced a robust strategy of community policing which has resulted in a familiar and engaging relationship between residents and our neighborhood patrol officers. This fear and unreported crime was getting in the way of community policing and, therefore, public safety.

In order to address these concerns, the Police Chief of New Haven and I requested a meeting with the undocumented community in 2005. The level of apprehension in the immigrant community about such a meeting with civil authorities was mitigated by how we set up the meeting. The meeting was held in a neutral space, at a neighborhood branch library, and was hosted by a trusted Catholic priest whose presence signified to the undocumented community that it was safe to attend. City Hall's message was clear: we define criminals by criminal behavior and not immigration status. We sought to convey the message that we were not agents or representative of a failed national immigration policy but were concerned about safety and unreported crime.

The meeting resulted in an agreement to work in three areas:

- Make City Hall documents Spanish-language friendly;
- Issuance of a Police General Order that clarified the City of New Haven's policy on immigrant engagement in police matters that reflected our rhetoric at the meeting; and

- Consideration of the issuance of an identity card for all City residents, regardless of immigration status.

The first two matters were accomplished in short order. Spanish language documents were employed throughout the government including our public schools. A Police General Order was issued clarifying that in matters involving the New Haven Police Department, immigration status was of no concern except in the instance where an individual was the subject of a criminal investigation.

Then, in 2007, the City began issuing the Elm City Resident Card (the "Card"). The Card is available for \$10 to any individual who can demonstrate who they are and that they live in New Haven. It is intended for use by those with and without legal status. The Card, aside from being used for identity purposes, can be used to access City services such as library and recreation activities, as a student ID, to open bank accounts and to access City facilities.

Prior to issuing the Card, City staff spent considerable time establishing protocols for documents that would be used to substantiate identity and residence, how to make the Card tamper proof and subjected these standards to a review with the U.S. Attorney for Connecticut.

The Card became available for public use during the summer of 2007. It was met with an immediate high demand with lines stretching down several City blocks on the first day of its issuance. Aside from the obvious utility that the Card provides to residents I believe it has also accomplished an equally important goal: the strengthening of civil fabric in the City.

Interaction between the immigrant community and police is now trusting and seamless. The whole community and police are all on the same team, building safer communities without fear of immigration status reprisal.

The Card has also been good for the New Haven economy. The Card has been used to reach out to the undocumented community for access to financial services and to obtain Federal Tax I.D. Numbers, so that the undocumented community can pay federal taxes. In short, the Card has given **ALL** members of the New Haven community not only a sense of their rights in New Haven, but a sense of their responsibilities to New Haven as well. Responsibility to their families, their neighborhood and to the larger community.

The sum of these efforts from the Card has also resulted in collateral initiatives that promote community well being that would have been unthinkable in 2007. Two years ago State legislation was passed that extended in-state tuition rates to the State's undocumented high school graduates. In addition, just several months ago legislation was

passed that will allow the undocumented community to obtain State of Connecticut drivers licenses.

The Card has also been a subject of interest around the world. In the last three years I have been invited to and spoken with groups and government officials in Rome, the Hague and Dublin regarding the Card and its key role in our immigration policies and outcomes here in New Haven.

In sum, we cannot expect to have healthy cities in the United States if we exclude significant parts of our residents from their responsibilities as residents of our communities. The Elm City Resident Card has proven to be an effective tool to engage all members of our community in this continuing, shared American journey.

I wish you the very best.

Very truly yours,

The Honorable Steven C. Bateman and City Council Members  
650 N.E. 22 Terrace  
City of Homestead  
Homestead, Florida 33033

Dear Mayor Bateman and City Council Members:

Rev. C. Alexis Talbott of the First United Methodist Church of Homestead asked me to share with you our knowledge and experience in creating a Municipal ID Card program since New Haven was the first city to implement such a program. I thought it useful to share New Haven's experiences engaging the matter in the absence of a coherent federal immigration policy and how that failure affects work, public safety and American competitiveness.

As you may know, New Haven is a densely developed urban community of some 130,000 people in a land area of some 20 square miles. The City is home to Yale University, a world class research institution; Yale-New Haven Hospital, which is the nation's 4<sup>th</sup> largest hospital by bed count; and a robust sector of knowledge based companies. The City is also home to most of the region's affordable housing and its housing stock is 70% rental.

Due to the abundance of rental and affordable housing and work inside the City, New Haven has always been a home to new and transient populations. Throughout our history the City has also been home to large immigrant populations. In fact, when my grandparents emigrated to America and New Haven, over one-half the City's population were immigrants. The Mayor of the City, just a few years earlier, had himself been an immigrant to America. Our City, like most American cities, has had a rich and beneficial experience with immigrant populations.

*\*This creative impression is the work of Jose Calle, a student of Roberto Clemente*

Handwritten notes at the top of the page: a large bracket on the left, a question mark in the center, and the word "immigrants" written vertically on the right.

I have been Mayor of New Haven since 1994. Shortly after becoming Mayor meaningful numbers of Mexican, Central American and South American families began settling in the City. Often arriving with visas, substantial numbers of these City residents remained after expiration of their entry documents. Over time these families began having children who were born in the United States, but whose older sibling had entered America at a very young age. Many of these young people often have no memory of their country of birth and have gone through elementary and high school with no national identity other than as Americans. As time went on, these families often and in increasingly large numbers, found employment in service jobs and became integral to the economic well being not only of their families, but to the City as well. I should also note that at the same time, other immigrant populations began to emerge in the City in substantial numbers as faculty, staff and students at Yale University.

By 2005 these immigrant communities had integrated themselves into the social fabric of our City. In addition to businesses, immigrant populations began to fill our churches, public schools, recreation leagues and neighborhoods. Increasingly we found that the undocumented community was disproportionately subjected to victimization by landlords, employers and to street crime. *The vision of New Haven's children

August 26, 2013

To Whom It May Concern,

I am writing to provide a recommendation on behalf of Dr. Tina Mannarino. I am familiar with Dr. Mannarino having worked with her in my capacity as Mayor of New Haven. As Mayor I am a member of the City's School Board and am also responsible for appointing the other members of the School Board. I also served as President of the National League of Cities ("NLC") in 2002 and in that capacity advanced a national agenda on behalf of early childhood education. Dr. Mannarino worked closely with me and NLC staff in that effort.

Dr. Mannarino has worked for the New Haven Public Schools for over a decade now. When first hired, she was tasked with expanding access to the District's Early Childhood programs. As indicated, at that time I was the President of NLC and committed to nationally messaging the importance of early childhood education to other local elected officials. Dr. Mannarino and I toured other early childhood providers, collaborated with providers and engaged national advocates on behalf of early childhood initiatives.

While our work together at NLC focused on national efforts, these experiences also helped shape Dr. Mannarino's vision for our local School District. As a result of a collaborative effort in New Haven that Dr. Mannarino was key in shaping, New Haven has introduced high quality pre-k services into virtually all of our elementary schools. The result has been a comprehensive set of high quality offerings for families across New Haven.

Dr. Mannarino's has demonstrated success in building community wide consensus. She has displayed a persistent set of skills characterized by listening to parents, teachers, staff and partners and working to accommodate their ideas and preferences. Accordingly, the New Haven pre-k model is tailored to fit the need of each school community in the fashion most appropriate to the children and families participating. These offerings have grown to include a dual language school, a themed magnet school and a school with a particular philosophy such as Reggio Emilia.

phone 203.946.8200 fax 203.946.7683

*\*This creative impression is the work of Jannine Ramirez, a student of Troup School.*

Aside from quality, New Haven has expanded quantity. During Dr. Mannarino's tenure our District has grown from 300 to 3,000 pre-k slots. Dr. Mannarino has managed this accomplishment while at the same time coping with diminishing financial resources. Her management skills, focus, and diligence has served the School District well.

Dr. Mannarino has also been a key manager in The Mayor's Early Childhood Council. The Council is mandated by state statute as a body assembled to oversee school readiness funds and plan for the expansion of services for students, birth to age 8. In her role at the Council Dr. Mannarino has chaired several committees as the Superintendent's designee and has successfully instituted City-Wide initiatives. Dr. Mannarino has been responsible for initiatives such as "Little Read" centers which distribute thousands of copies of the same book and that organizes community wide events to bring the book to life and to promote literacy. This year, over 1,000 parents attended these events during the Week of the Young Child. This is just one example of Dr. Mannarino's ability to create scenarios wherein the public, private organizations and families feel comfortable and excited about coming together around education in our City.

Dr. Mannarino is a capable educational leader who has been a leader and an innovator in our School District. I am pleased to provide a strong reference on behalf of her skills, work effort and collaborative behavior.

Very truly yours,

John DeStefano, Jr.  
Mayor

**IN ADDITION TO MAKING THE INTERSECTION SAFER FOR PEDESTRIANS, BICYCLISTS AND MOTORISTS, THIS WILL BEAUTIFY THE AREA AND CREATE A SENSE OF PLACE.**

**REDESIGN WILL:**

- **ELEVATE STREET TO CURB LEVEL**
- **INCLUDE TWO NEW TEXTURED PAVEMENT CROSSWALKS**
- **INCLUDE GRANITE, PERMANENT BENCHES**
- **MAKE ROOM FOR SEASONAL OUTDOOR SEATING**

- INCLUDE FLASHING “PEDESTRIAN CROSSING” SIGNS
- INCLUDE AUDUBON ARTS DISTRICT LOGO IN PAVEMENT
- BE ADA-COMPLIANT (PREVIOUSLY WAS NOT AS THE AREA WAS SO LOW THAT A PERSON IN WHEELCHAIR WOULD NOT BE VISIBLE TO MOTORISTS)

**ESTIMATED THAT THIS WILL SLOW DOWN TRAFFIC BY 20-25% AND CREATE AN IDEAL SPEED OF 20-25 MPH IN AREA**

**AS A RESULT OF THIS REDESIGN, 4 OR 5 PARKING SPACES ARE LOST. HOWEVER, THE BENEFIT OF CREATING A SENSE OF PLACE IN THE AREA OUTWEIGHS THIS.**

**TALKING POINTS:**

**HERE IN NEW HAVEN, WE HAVE ONE OF THE MOST DENSELY POPULATED DOWNTOWNS IN NEW ENGLAND.**

**THE PEOPLE WHO LIVE IN THE CITY CENTER DON'T WANT TO TRAVEL JUST BY CAR.**

**MANY PREFER TO BIKE OR WALK. THIS REDESIGN OF THIS INTERSECTION WILL MAKE IT SAFER FOR EVERYONE. THE DESIGN FOLLOWS THE “COMPLETE STREETS” PRINCIPLES AND IT IS ADA COMPLIANT (IT WAS NOT BEFORE BECAUSE IT WAS SO LOW).**

**AND IT CREATES A SENSE OF PLACE, ADDING TO THE VIBRANCY OF DOWNTOWN NEW HAVEN.**

Hi Mayor--

I just got word from Jim Travers that the complete redesign of the Whitney-Audubon intersection is ready to go and he wants to do the announcement tomorrow at 1pm to ensure that another person will not take credit for it.

Attached, please find a PDF of what it will look like and below please find the draft release. I think it'd be a good media hit because the plan is impressive and people really like these improvements. Please let me know if you are interested.

#### CITY ANNOUNCES COMPLETE STREETS MAKEOVER FOR INTERSECTION OF WHITNEY AND AUDUBON

(New Haven, Connecticut) The Whitney Avenue and Audubon Street intersection—situated in the heart of New Haven's busy east side dining and shopping district and bordering Yale University and the Audubon Arts District—is getting a complete make-over.

The City of New Haven, utilizing the professional design services of CDM Smith, has redesigned the entire intersection using 'Complete Streets' principles in response to the traffic safety concerns of New Haven residents. The City of New Haven has one of the mostly densely populated downtowns in New England and thousands of visitors to downtown each day.

"This work is part of a larger effort by the City to make downtown easily navigable, more attractive and appealing and safe for everyone—pedestrians, motorists and bicyclists," said Mayor John DeStefano, Jr. "This redesign also creates a sense of place at the intersection."

Complete streets are designed to enable safe access for everyone—pedestrians, bicyclists, transit riders, and drivers—and have been shown to promote health, reduce traffic congestion, and improve economic vitality. New Haven's Complete Streets design manual was voted #1 by the National Safe Streets Coalition.

"Designing streets to just move cars doesn't work. This intersection will soon exemplify the direction that New Haven is taking with its street design and transportation safety policies by emphasizing pedestrian movement and support area businesses," said Jim Travers, Director, Transportation, Traffic and Parking.

The project employs 'Complete Streets' strategies and innovative traffic calming interventions to make the streets as conducive to pedestrian and bicycle travel as they are for motor vehicles and to encourage all users to share the street. This 'shared space' is achieved using:

- A 'speed table' or elevated intersection with special textured and colored surfacing, including high-visibility crosswalks;
  - Curb extensions or 'bump-outs' that reduce street widths at crosswalks and greatly enhance sight lines between pedestrians and motor vehicles;
  - Increased sidewalk widths to provide space for pedestrian amenities such as seating and sidewalk cafes;
  - Vertical edge treatments that will provide a buffer between sidewalks and travel lanes and also provide visual cues for motorists to anticipate increased pedestrian activity;
  - New granite bollards, street trees and ornamental LED street lighting which are positioned to intensify lighting at crosswalks; and,
  - Dual Rectangular Rapid Flashing Beacons (RRFB) activated by pedestrians that will alert drivers to crossing pedestrians using eye-level, LED strobe lights with an irregular flash pattern.
- This visionary design for Whitney at Audubon will dramatically change the street environment to create an intersection that is safer for commuters, students and other residents alike. By making it safer for people to cross the street, walk to shops, and bicycle to work, the city is not only improving the efficiency and capacity of existing roadways, but also enhancing the daily lives of citizens.
